Skills

- Python
- Generative AI
- Machine learning
- Data Analysis (Excel, Statistics)
- AI Application Development
- Problem Solving using AI
- Communication Skills

Summary

Ambitious BCA graduate with a strong foundation in Artificial Intelligence, specializing in developing and fine-tuning AI applications. Proficient in Python, Generative AI, and data analysis using Excel and Statistics. Demonstrated success in building practical AI solutions, including text-based chatbots and text-to-image generators. Eager to apply technical expertise and problem-solving skills to contribute to innovative AI development projects.

Education

Rajershri Shahu College, Swami Ramanand Tirth, Nanded (2023 - 2026)

Bachelor of Computer Application (2023 - 2026) (2023 - 2026)

Latur, Maharashtra

- Completed academic projects and coursework in C++, Python, Generative AI, AI using Python, HTML, Statistics, Mathematics, and C#.
- Acquired practical skills in AI development through focused study and project work, including building AI models and understanding statistical principles.

Project

- **Financial Analysis**
Spearheaded comprehensive financial analysis and variance reporting, providing key insights that informed senior executive decision-making.
- **Data Management**
Managed and optimized large-scale datasets, significantly improving data retrieval efficiency and ensuring data integrity across multiple departments.
- **Communication Skills**
Communicated complex financial metrics and strategic insights to non-technical stakeholders through interactive dashboards and clear presentations, ensuring understanding and alignment.
